While preparing for First Eucharist, the children planted tomato seeds in a paper cup. Now you may be wondering how planting tomato seeds relates to preparing for First Eucharist. I explained to the children that by caring for the seeds that they planted - watering them, giving them sunshine, feeding them plant food, and eventually planting them in the ground- the plant would grow and produce fruit. The same goes for our Faith! If all of us continue to nourish ourselves in our Faith (attending Mass, receiving the Body and Blood of Christ, praying daily, being of service to those in need, attending Faith Formation opportunities, and allowing God in) we too will grow and produce "fruit". We will see the results of this nourishment through the way we live and love as Jesus would want us to.

Paige Shipley, of St. Michael, certainly took this lesson seriously! As you can see in these photos, Paige took great care of her tomato seeds! Great job, Paige! And I know, with the help of her family and church community, she will take great care of her faith.

Love & Peace to all,

June
